

## The U.S. Corn Wet Milling Industry

This study covers the current state of the corn wet milling industry in North America, analyzing major industry players, their capabilities, and the supply and demand for wet milling products, including traditional sweeteners, polyols, and ethanol. The study includes a discussion of net corn costs and of profitability for the various products.

### Report Overview:

<b>Executive Summary</b> .....	<b>4</b>
<b>Part 1: Corn Wet Milling in North America</b> .....	<b>6</b>
Archer Daniels Midland (ADM).....	6
Cargill.....	7
Tate & Lyle.....	8
Corn Products International.....	9
Penford Corporation.....	12
Grain Processing Corporation.....	13
Roquette.....	14
<i>Table: Summary of Corn Wet Miller Capacities</i> .....	15
<b>Part 2: Wet Milling Product Application and Demand</b> .....	<b>16</b>
Major North American Economies.....	16
Wet Milled Products.....	17
Grind and Capacity Utilization.....	17
Swing Factors.....	17
<i>Table 2.1: Corn Grind by Product Line</i> .....	18
Future Avenues for Grind Diversification.....	21
High Fructose Corn Syrup Outlook.....	21
Factors behind the Decline in HFCS Demand.....	21
Sugar's Resurgence.....	23
<i>Table 2.2: Major Products Switching from HFCS to Sugar</i> .....	23
Other Sweeteners.....	24
<i>Table 2.3: Sweetener Alternatives</i> .....	24
High Fructose Corn Syrup Capacity Utilization.....	26
Starch Outlook.....	31
Unmodified Starch.....	31
Modified Starch.....	32
Future Growth Categories.....	33

(continued)

## The Starch Industry in North America

---

Corn Syrup Outlook.....	34
Corn Syrup Capacity Utilization .....	36
Corn Syrup Demand by Category .....	36
Dextrose Outlook .....	37
Dextrose Capacity Utilization.....	37
Dextrose Demand by Category.....	37
Fermentation Products: U.S. Ethanol Industry .....	39
Ethanol Capacity Utilization.....	39
Fermentation Products: Polyols.....	41
Industrial Uses of Polyols .....	41
<i>Table 2.4: Sweetener Caloric Count.....</i>	<i>41</i>
Global Polyol Consumption .....	42
<i>Table 2.5: Sugar-Free Gum Demand, by Country.....</i>	<i>43</i>
U.S. Polyol Consumption.....	44
<i>Table 2.6: Estimated U.S. Polyol Demand.....</i>	<i>44</i>
<i>Table 2.7: Breakdown of Total Estimated U.S. Domestic Polyol Consumption in 2009 .....</i>	<i>44</i>
<i>Table 2.8: Total Estimated U.S. Polyol Consumption in 2009, by Type.....</i>	<i>45</i>
Mexican Polyol Consumption .....	45
<i>Table 2.9: Breakdown of Total Estimated Mexican Domestic Polyol Consumption in 2009.....</i>	<i>46</i>
<i>Table 2.10: Total Estimated Mexican Polyol Consumption in 2009, by Type.....</i>	<i>46</i>
Canadian Polyol Consumption.....	47
<i>Table 2.11: Breakdown of Total Estimated Canadian Domestic Polyol Consumption in 2009.....</i>	<i>47</i>
Capacity Utilization Rates .....	48
<i>Table 2.12: Estimated North American Polyol Capacity Utilization for 2010 .....</i>	<i>48</i>
<b>Part 3: Costing in the Wet Milling Industry .....</b>	<b>49</b>
Front-End Feedstock Costs .....	49
Net Corn Costs .....	50
Impact of Net Corn Costs on Corn Wet Milling.....	51
Effect of Net Corn Cost Changes on Starch Producers.....	51
Effect of Net Corn Cost Changes on Glucose Producers.....	52
Effect of Net Corn Cost Changes on Dry Dextrose Producers.....	52
Effect of Net Corn Cost Changes on Liquid Dextrose Producers.....	52
Effect of Net Corn Cost Changes on HFCS-42 Producers.....	53
Effect of Net Corn Cost Changes on HFCS-55 Producers.....	53
Starch Variable Production Costs.....	54
Labor .....	54
Energy .....	54
Maintenance and Wastewater Treatment .....	55
Variable Cost of Production: Starch House Specifics .....	55
Cost of Production Study.....	56
